

New Year

AT
T A T T U

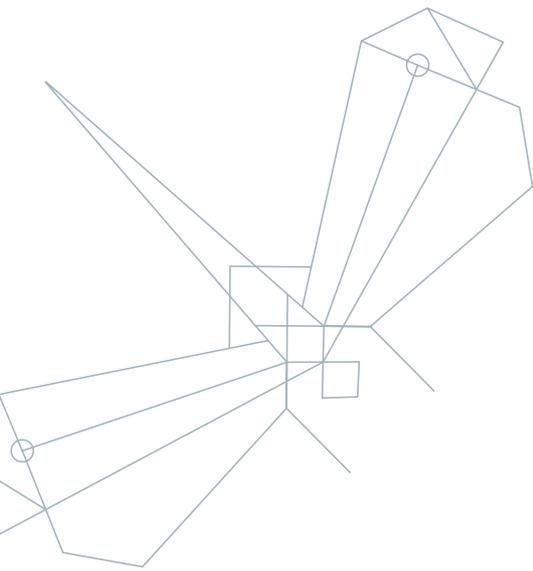

Embracing the New Year spirit In China, the image of the dragonfly is often associated with prosperity and harmony and is seen by many as a good luck charm. Similarly, butterflies represent luck and symbolise hope and joy - a new phase in life. The free-spirited dragonfly is a symbol of change, from mental and emotional to physical, and is seen as a sign that things are about to shift. These beautiful creatures teach us to always be open to change.

As we look ahead to 2022, we wanted to embrace both entities and share all that they represent with our guests at this special time of year. We wish you and your loved ones a healthy, happy and prosperous new year filled with love and light.

Welcome to Tattu.
